

关永忻 YONGXIN GUAN {Kevin}

Phone: (+86) 134 3543 5149 | Email: kwanyongxin@gmail.com | College Email: t330024052@mail.bnbu.edu.cn

Address: 2000 Jintong Road, Tangjiawan, Zhuhai, Guangdong Province, China

EDUCATION

BEIJING NORMAL - HONG KONG BAPTIST UNIVERSITY(BNBU)

Bachelor of Science (Honours) in Data Science

Zhuhai City, Guangdong Province, PRC

August 2023 – June 2027

- Year 3 Undergraduate Student
- Year-GPA (4.0 Standard) in Year 1-3.54; Year 2-3.48; Year 3(S1) -3.50
- Second-class scholarship and President's Honour Roll
- **Future:** PhD Degree & Interests in AI4S, World Model, Knowledge Graph (KG), Agent Tech, Reinforcement Learning and Architectural of LLM and LLM-Enhancement in Cross-fields and Real life

RESEARCH

[Accepted] Enhancing Multimodal Adversarial Transferability via Boundary-Context Augmentation (ICCECC 2026)

EI Conference, Co-Author, Ai Security Area

- Proposed the **BCA-AET framework**, which improves the robustness of adversarial perturbations under different spatial layouts through boundary-context augmentation
- The method further integrates **image-text collaborative optimization** to enable cross-modal attacks, thereby enhancing the adversarial transferability and stability of VLP models in **black-box** scenarios

FYP TOPIC: Multimodal Relation Extraction with Large Language Models

Core Member

Supervisor: Dr. Rui MENG

March 10 2026 – Present

- **Designed and optimized multimodal prompt engineering strategies** for Large Language Models (LLMs), effectively fusing visual and textual features to enhance the accuracy of cross-modal relation extraction
- **Constructed and pre-processed multimodal datasets**, aligned image-text feature spaces, and applied fine-tuning techniques to adapt state-of-the-art LLMs for domain-specific entity relation tasks

RECENT RESREACH TOPIC:

Knowledge Graph Completion and KGC in Graph RAG

Supervisor: Dr. Rui MENG

- Evaluated and implemented SOTA Knowledge Graph Completion (KGC) models, focusing on improving link prediction and entity alignment within complex and incomplete graph structures
- Augmented Generation (Graph RAG) framework, enhancing the underlying knowledge graph's completeness to significantly reduce hallucination and improve the logical reasoning capabilities of language models

Height Measure Algorithm for Humen's Talent Identification and Development (TID)

Supervisor: Dr. Ximing SHANG

- Developed a high-precision visual algorithm for human height measurement based on single-image inputs, initially implementing and optimizing human key point extraction models to accurately localize skeletal nodes
- Engineered specialized algorithmic solutions to overcome critical visual challenges, effectively correcting for lens distortion and perspective errors to ensure robust and accurate measurements in diverse real-world environments

EXPERIENCE

CHINA UNICOM

Agent Engineer in Software Development Group (Intern)

Foshan City, Guangdong Province, PRC

January 1 2026 – March 1 2026

- Engineered an intelligent agent for comprehensive PDF content analysis, specifically addressing information loss in traditional text extraction by successfully processing image-heavy enterprise documents
- Integrated advanced visual and textual parsing tools (OCR), enhancing the agent's accuracy and efficiency in extracting and structuring multimodal data for downstream applications

TRAE, ByteDance

Fellow in ZHUHAI City

Zhuhai City, Guangdong Province, PRC

August 1 2025 – Present

- Collaborated with cross-functional teams to evaluate and promote AI-driven development tools, conducting product testing and providing actionable feedback to drive iterative optimization
- Analyzed user engagement metrics and technical requirements, bridging the gap between developers and product teams to enhance overall user experience and adoption rates

- Planned city-level events to promote knowledge equality, allowing more developers to exchange the latest industry developments and discuss future trends

CHINA MOBILE

Backend Development Engineer (Intern)

Foshan City, Guangdong Province, PRC
June 1 2025 – August 29 2025

- Assist in developing business platforms for enterprises
- Conceive a workflow (Dify platform) for enterprise project implementation
- Engineered and maintained robust backend services for enterprise business platforms, optimizing database architecture and API endpoints to ensure system stability and high performance

Leadership & Campus Service

CANEER DEVELOPMENT CENTER (CDC) OF BNBU

Internship (Campus)

Zhuhai City, Guangdong Province, PRC
August 30 2025 – Present

- Manage and analyze student employment data, utilizing analytical tools to generate statistical reports that supported the center's strategic planning for career services
- Coordinated campus recruitment events and maintained digital information platforms, ensuring seamless communication and resource sharing between prospective employers and the students

NAVIGATOR ROBOT TEAM OF BNBU

Member of the Mechanical Development Group in VexU & RobotMaster team

Zhuhai City, Guangdong Province, PRC
August 30 2024 – Present

- Structural optimization of robots by analyzing machine structures
- Co-development of robot operating systems with other development team members
- Regularly representing the college in national and global competitions

CHINESE COMMUNIST YOUTH LEAGUE AFFAIRS OFFICER OF BNBU

Propaganda Department Officer Member (Campus)

Zhuhai City, Guangdong Province, PRC
August 30 2023 – Present

- Produce event tweets regularly to promote events
- Collaborating with colleagues on photography projects

BADMINTON ASSOCIATION OF BNBU

Propaganda Department Officer Minister (Campus)

Zhuhai City, Guangdong Province, PRC
August 30 2023 – Present

- Coordinate universities' resources and conduct competitions in an orderly manner
- Conduct regular online media publicity for the association

REWARDS

- The 6th Meituan Business Analysis Elite Competition - **Outstanding Works Award** (Global Top 50-100)
- The 16th National College Students' E-commerce Innovation, Creativity and Entrepreneurship Challenge Competition - **First Price**
- 2025 National College Students Mathematical Modeling Competition - **Provincial Third Prize**
- 25-26 Academic Year Student Leadership Development Program - **Silver Medal**
- TRAE Shenzhen Hackathon - **TRAE-SOLO Best Idea Award**
- 24-25 Academic Year School-level **Second-Class Scholarship**
- Environmental Awareness Holistic Education **Outstanding Student Award**

SKILLS AND INTERESTS

Professional Skills: Python, PyTorch, OpenCV, Java, C, SQL, TypeScript, Microsoft Office, Ai-Coding, Adobe Software

Technical Skills: Full-stack development, Well-structure in writing paper, Data Analytics, AI Tools

Language: Cantonese (Proficient), English (Proficient), Putonghua (Proficient), Spanish (Beginner), French (Beginner)

Interests: Research in AI, Badminton, Photography, Books, Aviation & Bus Culture, Making & Testa Coffee
